Style 310

- Automatically adjusts to fluctuating water flow to maintain effective pressure and a consistent stream in all flow ranges
- Adjustable from straight stream to fog pattern
- Nozzle flushes easily without shutting down and provides constant flow in either fog or straight stream
- Flow pattern detents facilitate positive positioning and smooth action
- Extensive range of flow settings
- Excellent performance at pressure as low as 50 psi (3.5 bar)
- Exceptionally lightweight, compact and corrosion resistant alloy construction
- Minimal maintenance reflected in robust design, precision machining and quality materials
- Ball valve control
- Stainless steel spinning teeth
- Suitable for foam application and compatible with Protek's foam aeration tubes
- Conforms to all aspects of NFPA 1964 (Spray, Nozzles, Shutoff and Tips)

Specification

Style	Inlet Size	Length	Weight	Flow Settings	
			Lbs (kg)	GPM	LPM
310	1" (25mm)	9.1" (229mm)	3.7 (1.7kg)	10-75	40-285
