

SPECIALITY NOZZLE

Style 320

- Designed for flashover operation.
- Durable slide valve design for quick continuous open/close operation.
- Easy to operate with a-quarter turn from straight stream to fog.
- One-click turn of the moulded bumper ring to flashover pattern position.
- Raised lug on the bumper for floashover fog pattern identification.
- Combination pattern nozzle with multiple flow settings: 30-60-95-125 GPM (115-230-360-475 LPM)
- Exceptionally light weight and compact.
- Minimal maintenance reflected in robust design, precision machining and quality materials.
- Conforms to all aspects of NFPA 1964 (Spray, Nozzles, Shutoffs and Tips).
