

ELECTRIC NOZZLE

Style 379

- Designed for use in Class C Hazards
- Safe to use at a distance greater than 10' from electrical equipment
- Designed to produce either wide or narrow (minimum of 30°) fog settings only
- Produces superb wide fog pattern for optimum fire fighter protection
- Combination pattern nozzle with multip flow settings
- Flow rate remains constant regardless of pattern change
- Flow pattern detents facilitate positive positing and smooth action
- Flush without shutting down
- Lightweight hardcoat anodized aluminium construction
- Minimal maintenance reflected in robust design, precision machining and quality materials
- Conforms to all aspects of NFPA 1964 (Spray Nozzles, Shutoffs and Tips)
